LAMILUX Gebäudeautomation

Стоечно-ригельная конструкция с интегрированными люками дымоудаления на башне uniqa, вена, австрия

Essential info

Place / Country:	Wien, Austria
Project:	Office building
Solutions:	SHEV Solar protection screen LON bus technology Building automation/CI control technology

Planning and integration of control technology for the smoke and heat exhaust systems integrated into the glass roof in combination with solar protection control via LON bus.

- Development of large flap elements for special drive technology
- Drive units covered in casing sleeve, so that the cable duct is almost completely concealed throughout its length
- SHEV controls combined with solar protection
- Control system for the atrium is operated via emergency-power-supplied control panels for SHEVS and solar protection via LON bus technology.
